

# BLACK TYPE

## CAREER TO 12 JANUARY 2014 - for sires featured in "SIREs 2014"

Grading of races was introduced in South Africa at the beginning of the 1981/82 racing season. Black type was earned by horses finishing in the first three in graded and listed races (the first four in Graded races qualified up to August 2003).

Listed here are the sires featured in the "SIREs 2013", with their black type earning progeny, and the race(s) they qualified with. Also shown are year of birth and sex, as well as the dam with her sire and damsire.

Since Merit Ratings were only introduced in 2000, SSI has been used to give an indication of the class of the black type performers. SSI reflects the average earnings per start, compared to those of the average horse of the same age and sex (SSI 1.00 is average).

horse      age/sex      SSI
