<b>HANDICAPS</b>												
	<i>Merit Rating Benchmark</i>	The stake for a handicap is dependant on the merit rating benchmark for the race, as indicated below. However, if the benchmark for a race falls between two of the benchmarks, the stake will be that of the benchmark closest to the benchmark of the race. If it falls exactly between benchmarks, the stake will be that of the lower benchmark. A stake once published on the weights for a handicap will not be reduced if the benchmark is reduced at declaration time.
