PEDIGREE

The build-up of Traffic Guard's female line shows consistent kin-breeding through the generations, with remote female line ancestor Kilcaskin the significant factor. All of Traffic Guard's female line ancestors show kin-breeding involving Kilcaskin. The latter is highly inbred herself, and has many kin-relatives. Among those is La Troienne and her dam Helene de Troie. La Troienne is the significant female line ancestor of Traffic Guard's sire More Than Ready.

From the same female line comes multiple Gr1 winner Erin's Isle, who is closely kin-bred, with kin-breeding through Kilcaskin in the background. The same goes for another multiple Gr1 winner in the family, Occult, whose sire Kama traces to Marguerite de Valois, full sister to Bull Dog and Sir Galahad. Their sire Teddy and dam Plucky Liege are both close kin to Kilcaskin (who has the same female line as Teddy). Teddy is sire of La Troienne.

SUITABLE LINES for Traffic Guard could include multiple background lines of La Troienne, and Teddy (through Bull Dog and Sir Galahad). This leads to Buckpasser, who is widespread in SA, and notable especially in sires Northern Guest, Al Multi, National Assembly (there are others), who therefore make suitable signposts. La Troienne and Bull Dog/Sir Galahad can be found in many places, though.

Occult's sire Kama makes sense, but is not well represented in SA mares. Also not well represented is Chief Advocate's sire Law Society, from female line also of Gallant Man. Both would be suitable signposts. The sire of Erin's Isle is Busted, full brother to the dam of Elliodor. From the same female line comes sire Ballyogan.
